

Think Construction Toolkit:

Construction careers playlist

A. Construction Project Manager

Hamza Momade: Hear Hamza, a Project Manager, discussing his career working in four different continents and the need for finding ways to modernise construction.

B. Design Manager

Steve Winslow: Learn about Steve Winslow's day-to-day role as a Senior Design Manager, including how he collaborates with Architects, Engineers and Project Managers, and hear about how he moved into the role from his Site Manager (and climbing!) background.

Alaa Ayman: Alaa Ayman, an Architect and Design Manager, discusses what she most enjoys about her role, as well as the benefits of being involved in different stages of each project, the importance of networking, and her advice for anyone thinking of entering the industry.

C. Contracts Manager

Langanani Muthambi: Hear about Langanani's responsibilities as a Construction and Contracts Manager/Administrator, working in South Africa, as well as how she worked her way up to her current career position plus her top tips to succeed.

D. Building Surveyor

Ashley Roberts: Hear all about Ashley's rewarding career as Chartered Construction Manager and Building Surveyor, including a typical day in his job, how he became interested in building surveying, and the skills you'll need to excel in the role.

Tony Or: Listen to Tony, a Home Improvement Agency (HIA) Surveyor, as he discusses his role and how he can make a real difference to peoples' lives by adapting homes within the public, social and private housing sectors.

E. Building Information Modelling (BIM) Manager

Gayathre: Hear how Gayathre – a BIM/VDC/CDE Consultant – uses AI to help organisations strive for safer, faster and more sustainable construction techniques through Building Information Modelling. Discover how

her passion for driving digital transformation makes her job creative and exciting.

F. Sustainability Specialist

Hattie Thompson: Listen to Hattie talking about her varied role as a Sustainability Manager and discover the benefits of studying part time or undertaking a degree apprenticeship whilst you work in the industry.

G. Construction Site Manager

Liz Moss: Liz Moss, an Apprentice Site Manager, talks us through the diversity of her daily role and responsibilities on site, and the career path she took to get into the job she loves.

H. Structural Engineer

Monica Chandran: Listen to Monica giving an insight into a typical day in her job as a Site Engineer for a civil engineering company, and hear how continuous learning, new advances in the field, and innovative construction techniques using sustainable materials makes her job truly rewarding.

I. Quantity Surveyor

Reagan Williams: Reagan Williams, a graduate Quantity Surveyor who works both in the office and on-site, tells us all about his daily responsibilities within the role, what makes him passionate about the job and how he got into the industry through work experience at school.

J. Construction Planner

Anne Okafor: Anne, a Construction Planner, talks us through her responsibilities within her role, how her decisions positively impact the business, and why hybrid working and the variety within her position made moving from the hospitality industry to construction a worthwhile career decision.
