PROFESSIONALISM AND INTEGRITY IN CONSTRUCTION

CIOB CBC SCHEME OBJECTIVES

Our CBC scheme is the natural home for the construction professional company.

It represents what the Chartered Institute of Building stands for in the workplace and in the business community. It is the mark of excellence and the corporate membership of choice. Company scheme members will endorse the CIOB principles through best practice in management, professionalism and competent behavior.

Becoming a Chartered Building Company will demonstrate to your customers and suppliers that your business is committed to the principles and values of best practice, ethical standards and professionalism. The challenge is to ensure that the industry’s clients, especially those who require construction work within the built environment, are able to easily identify suppliers who provide a quality service, run by professionally qualified staff, who are corporate members of the CIOB.

Chartered Building Companies, adhering to the stringent standards set, will be eligible to use the title “Chartered Building Company” or “Chartered Building Consultancy” and can use the strapline ‘Professionalism and Integrity in Construction’, proudly displaying the Chartered Building Company or Consultancy logo.

The Scheme Rules refer to other CIOB Rules and Regulations from time to time and include but are not limited to:

- Rules and Regulations of Professional Competence and Conduct
- Membership Regulations
- Disciplinary Regulations

These require that company members conduct their duties with honesty, efficiency and integrity, providing their clients with a quality service and value for money. Your business/organisation must agree to operate based on the Scheme Rules.

These Scheme Rules have been written by the industry to give greater relevance and recognition so that Chartered Building Company membership is not just desirable, but essential, for the truly professional business.
